

Investigate: What is a cloud?

- 4-5 Observe** the bowls for 1 minute. Observe the bowls again after 5 and 10 minutes. Record your observations.

Time	Observations	
	Bowl With Warm Water	Bowl Without Water
After 1 minute		
After 5 minutes		
After 10 minutes		

Explain Your Results

- 1.** Based on your **observations**, make an **inference**. Is there moisture in the air from which clouds form? Explain.

- 2.** Use your **models** to describe some of the conditions necessary for clouds to form in the atmosphere.
