What effect does the ice have? Design and conduct a scientific investigation to answer this question or one of your own. Describe and demonstrate how to safely perform your investigation.

Self-Assessment Checklist	
I followed instructions to make a model to represent cloud formation.	_____
I observed the bowls for 1 minute and recorded my observations in the chart.	_____
I observed the bowls after 5 and 10 minutes and recorded my observations.	_____
I made an inference about the amount of moisture in the air from which clouds form.	_____
I used my models to describe some of the conditions necessary for clouds to form.	_____

Notes for Home: Your child did an activity to **observe** the role of moisture in cloud formation.

Home Activity: With your child, **observe** the clouds in the sky and discuss how they formed.
